

ISO 2022: THE GLOBAL STANDARD FOR MODERN PAYMENTS MESSAGING

The global language powering
interoperable, data-rich, future-ready payments.

EXECUTIVE SUMMARY

ISO 2022 has become the global language of modern payments.

Financial institutions, central banks, payment schemes, fintechs, clearing houses, regulators, and payment processors worldwide are adopting ISO 2022 to improve interoperability, increase data richness, strengthen compliance, enable faster payments, and support innovation.

This course provides you with a comprehensive understanding of ISO 2022, from its origins and business drivers through to message structures, payment flows, implementation challenges, operational impacts, compliance benefits, and future opportunities.

THIS COURSE IS DESIGNED FOR

<ISO 2022>

Payments

Interoperability

Data Rich

Future Ready

AT A GLANCE

	DELIVERY	Online LMS
	AUDIENCE	Banks, Fintechs, PSPs, Payment Processors, Central Banks & More
	REGION	South Africa & Africa
	FORMAT	Modular, Self-Paced Learning
	ASSESSMENTS	Included
	CERTIFICATION	Included

VALUE PROPOSITION

FOR PARTICIPANTS

- ✓ Comprehensive understanding of ISO 2022 message standards and data models
- ✓ Practical knowledge of message structures, flows and key message categories
- ✓ Understand business drivers for global migration and industry adoption
- ✓ Learn how rich data improves processing, reconciliation, compliance and CX
- ✓ Develop skills to interpret messages, support STP, interoperability and automation
- ✓ Gain insight into migration, implementation challenges and operational impacts
- ✓ Build expertise for future career growth in the evolving payments industry

FOR INSTITUTIONS

- ✓ Build organisational readiness for ISO 2022 migration and adoption
- ✓ Improve operational efficiency and automation with structured, rich data
- ✓ Strengthen reconciliation, reporting, compliance and regulatory outcomes
- ✓ Enhance collaboration across business, operations, technology and compliance teams
- ✓ Support innovation across real-time payments, open banking, APIs and digital channels
- ✓ Reduce migration risk and improve staff understanding of impacts and change
- ✓ Maximise strategic benefits: better CX, analytics, fraud management and agility

STRATEGIC BUSINESS OUTCOMES

- ✓ Support ISO 2022 migration initiatives successfully
- ✓ Improve payment data quality and transparency
- ✓ Enhance operational efficiency and automation
- ✓ Strengthen compliance and regulatory reporting capabilities
- ✓ Improve customer and corporate payment experiences
- ✓ Enable richer analytics and business intelligence
- ✓ Support real-time and cross-border payment innovation
- ✓ Build long-term competitiveness in the evolving global payments ecosystem

COURSE CURRICULUM – 12 MODULAR TOPICS

- | | | | | | |
|---|--|---|--|---|---------------------------------------|
| 01 Introduction to ISO 2022 | 02 Understanding the ISO 2022 Framework | 03 ISO 2022 Architecture & Design Principles | 04 Understanding ISO 2022 Message Structure | 05 Core ISO 2022 Message Categories | 06 Deep Dive into Key Messages |
| 07 ISO 2022 in Different Payment Systems | 08 ISO 2022 & Compliance | 09 Operational Impacts Across the Payments Ecosystem | 10 Migration to ISO 2022 | 11 ISO 2022 in South Africa & Africa | 12 The Future of ISO 2022 |

RICHER DATA.
STRONGER OUTCOMES.
BETTER PAYMENTS.

STANDARDISED TODAY.
TRANSFORMING PAYMENTS
TOMORROW.

EMPOWERING TEAMS
TO SHAPE THE FUTURE
OF PAYMENTS.

ONE GLOBAL STANDARD.
ENDLESS POSSIBILITIES.
